A summary of Reserve movements between periods is summarised as follows:

- The Burton Reserve (Ellensfield South and Plumtree North) decreased by 2.7Mt due to depletion as released to market on 28 July 2025 – June 2025 Quarterly Activities Report.
- The Burton Reserve (Isaac Pit) increased by 1.7Mt as released to the market on 3 December 2024 – Resources and Reserve increased at Isaac Pit, part of the Burton Mine Complex

### Listing Rule 5.23 Statement

All exploration results, and estimates of mineral resources and ore reserves, referred to above in this announcement have previously been announced to the market by the Company in accordance with the requirements of Chapter 5 of the ASX Listing Rules and the JORC Code 2012. The Company confirms that except as set out in this announcement, it is not aware of any new information or data that materially affects the information contained in the cited ASX announcements. In respect of estimates of mineral resources and ore reserves, all material assumptions and technical parameters underpinning the estimates in the cited ASX announcements continue to apply and have not materially changed.

**The Receivers and Managers and Voluntary Administrators of the Company have authorised the release of this announcement to the market.**

### **Forward-Looking Statements**

Certain statements made during or in connection with this statement contain or comprise certain forward-looking statements regarding the Company's Mineral Resources, exploration operations and other economic performance and financial conditions as well as general market outlook. Although the Company believes that the expectations reflected in such forward-looking statements are reasonable, such expectations are only predictions and are subject to inherent risks and uncertainties which could cause actual values, results, performance or achievements to differ materially from those expressed, implied or projected in any forward-looking statements and no assurance can be given that such expectations will prove to have been correct. Accordingly, results could differ materially from those set out in the forward-looking statements as a result of, among other factors, changes in economic and market conditions, delays or changes in project development, success of business and operating initiatives, changes in the regulatory environment and other government actions, fluctuations in coal prices and exchange rates and business and operational risk management. Except for statutory liability which cannot be excluded, each of the Company, its officers, employees and advisors expressly disclaim any responsibility for the accuracy or completeness of the material contained in this statement and excludes all liability whatsoever (including in negligence) for any loss or damage which may be suffered by any person as a consequence of any information in this statement or any error or omission. The Company undertakes no obligation to update publicly or release any revisions to these forward-looking statements to reflect events or circumstances after today's date or to reflect the occurrence of unanticipated events other than required by the Corporations Act and ASX Listing Rules. Accordingly, you should not place undue reliance on any forward-looking statement.

### **Competent Person Statement**

Resources for Bluff, Burton, Lenton, Comet Ridge, Cooroorah, Hillalong, Isaac River, Lilyvale and Mackenzie have been approved by Mr Troy Turner who is a Member of the Australasian Institute of Mining and Metallurgy. Mr Turner, Managing Director and a fulltime employee of Xenith Consulting Pty Ltd, has sufficient experience that is relevant to the styles of mineralisation under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr Turner has approved this ASX announcement and Resources Statement as a whole in the form and context in which it appears in this release.

Resources for BME have been approved by Mr Sean Dixon who is a Member of the Australasian Institute of Mining and Metallurgy. Mr Dixon, Principal Geologist and Consulting Manager and a fulltime employee of Measured Group Pty Ltd, has sufficient experience that is relevant to the styles of mineralisation under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr Dixon has approved this ASX announcement and Resources Statement as a whole in the form and context in which it appears in this release.

Reserves for Burton and Lenton have been approved by Mr Sunil Kumar who is a Member of the Australasian Institute of Mining and Metallurgy. Mr Kumar, Principal Mining Engineer and a fulltime employee of Xenith Consulting Pty Ltd, has sufficient experience that is relevant to the styles of mineralisation under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr Kumar has approved this ASX announcement and Reserves Statement as a whole in the form and context in which it appears in this release.

Reserves for BME have been approved by Mr Tony O'Connell who is a Member of the Australasian Institute of Mining and Metallurgy. Mr O'Connell, Principal Mining Engineer and a Director of Optimal Mining Solutions, has sufficient experience that is relevant to the styles of mineralisation under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr O'Connell has approved this ASX announcement and Reserves Statement as a whole in the form and context in which it appears in this release.

## About Bowen Coking Coal

Bowen Coking Coal has established a significant hard coking coal position in Queensland's world class Bowen Basin as the company serves the increasing demand for high, quality steelmaking coal around the world.

The Company's flagship Burton Mine Complex near Moranbah encompasses multiple operations with the Ellensfield South Mine and the Plumtree North development serving a centralised Coal Handling and Preparation Plant (CHPP) and train load out facility connected by a haul road. The co-located Lenton and Isaac pits are undeveloped open-cut projects which will provide production continuity at Burton.

Bowen's other assets include the Broadmeadow East Mine near Moranbah and the Bluff Mine near Blackwater, which are both currently under care and maintenance. The company also holds the Isaac River (100%), Hillalong (80%) Cooroorah (100%), Carborough (100%) and Comet Ridge (100%) coking coal development projects and is a joint venture partner in Lilyvale (15% interest) and Mackenzie (5% interest) with Stanmore Resources Limited.
