

Market Announcement

28 October 2025

September 2025 Quarterly Activities Report

Coolgardie Gold Operations:

- Milling at the Three Mile Hill (TMH) processing plant remained stable and efficient, with a total of 431,346 tonnes processed — including 371,054 tonnes of the Company's own ore and 60,292 tonnes of toll treatment ore. A record month of Company-owned gold poured was achieved in August, delivering 8,274 ounces.
- A total of 332,517 tonnes of ore were mined across the CNX, Dreadnought, Alicia open pits and Bonnie Vale Underground.
- The Company's own ore achieved an average grade of 1.68 g/t with a metallurgical recovery of 94.5%, peaking at 95.3% on high-grade ore.
- 20,014 ounces of gold were sold at an average realised price of A\$5,288 per ounce, alongside 2,540 ounces of silver credits.
- Mining continued at Alicia and Dreadnought, and started at CNX with development underway across both pits and updated grade control models in place.
- Bonnie Vale produced 36,366 tonnes of development ore at an average grade of 8.23 g/t Au, for 9,621 ounces. Ore development was focused between 1285L and 1330L.
- Development at Bonnie Vale was accelerated with the addition of a second jumbo and loader, supporting higher advance rates and productivity.

Exploration/Resource Development Activities:

Coolgardie Gold Project

- Bonnie Vale underground diamond drilling commenced for grade control of production material and extending mineral resources down dip from current planned development.
- An updated pit design was initiated for Alicia following grade control model update. The Company is seeing an improvement on grade as the strip ratio improves.
- New grade control model at CNX generated a more cohesive and repeatable grade shell allowing higher-grade core to be captured and estimated within.
- Several drilling programs were finalised and approved for the Greater Undaunted area which will see continuous drilling for the next several months starting from early October. These programs are designed to unlock additional resources immediately north of the proposed Undaunted pit in the Cookes, Top Tank, Lady Loch and Adelaide-Friendship deposits.

Corporate Highlights:

- Cash (unrestricted) as of 30 September 2025: \$113.6 million.

West Australian gold company Focus Minerals (**ASX: FML**) (**Focus** or the **Company**) is pleased to provide its Quarterly Activities Report for the quarter ended 30 September 2025.

Most of the Company's effort during the quarter was directed towards the Coolgardie Gold Project .

Coolgardie Gold Project

The Coolgardie Gold Project (**Coolgardie**) covers 112.1km² of highly prospective tenements on the outskirts of the Coolgardie township in the Goldfields region. The Company's efforts are focused on optimising mining and processing operations, whilst developing of the Bonnie Vale Underground Mine.

Coolgardie Production Activities

Open Pit Mining:

- Surface mining continued in Dreadnought and Alicia during the quarter, with preliminary work also beginning in CNX pit.
- Total material mined was 2,886,635 tonnes for the quarter.
- Total ore mined was 291,408 tonnes at 1.00 g/t for 9,331 ounces.
- Total material movement across the pits reached approximately 1.28 million BCM.
- Dreadnought continued this quarter, producing 8,907 tonnes at 0.82 g/t for 116 ounces, with activities focused on continued mining in the northern section.
- Alicia mined 279,749 tonnes at 1.02 g/t for 9,178 ounces during the quarter.
- CNX preliminary activities included the reclaim of 2,752 tonnes of low-grade material at 0.42 g/t for 37 ounces.
- Low-grade stockpiles were leveraged to sustain higher throughput rate during the quarter.

Bonnie Vale Underground Mining

- Produced 36,366 tonnes of development ore at an average grade of 8.23 g/t Au, for 9,621 ounces. Ore development was focused between 1285L and 1330L.
- Development activity accelerated with the addition of a second jumbo and loader, supporting higher advance rates and productivity.
- Completed 1,297 metres of lateral development, comprising 670 metres of capital and 627 metres of operating development.
- Achieved a monthly record of 6,093 ounces mined in August, driven by high-grade development ore from 1285L.
- Equipment availability remained strong, averaging above 89% across drill, load, and haul fleets.
- Key infrastructure milestones included the installation of escapeways from 1270L to surface and commissioning of the primary ventilation fans.
- A longhole production drill rig was mobilised in September, with the first stope on 1285L drilled and on track for firing by the end of October.

TMH Ore Processing:

- Processing operations at TMH remained stable and efficient throughout the quarter.

- A total of 431,346 tonnes of ore was processed, including 371,054 tonnes of the Company's own ore and 60,292 tonnes of toll treatment ore.
- A record month of gold poured (8,274 ounces) in August and 161,194t processed in September was achieved.
- The average grade of Focus ore processed was 1.68 g/t. Recovery averaged 94.5%, peaking at 95.3% on high-grade ore.
- High throughput rates were maintained, leveraging stable plant performance to mitigate the impact of equipment availability challenges.
- Toll milling was strategically utilised to maintain effective mill utilisation at 91.9%. Supporting consistent monthly throughput above 120,000 tonnes. Enabling continued development at Alicia, CNX and Dreadnought.

Mine Geology:

Bonnie Vale Underground Mine

Bonnie Vale underground was developed on several levels during the quarter from the 1330 level to the 1270 level. Main ore development came from the 1285 and 1315 levels. Grades seen in development match well with drill hole results. Reconciliation to date from Bonnie Vale have all seen positive results giving high confidence in the block model and mine plan going forward.

At the end of September underground diamond drilling commenced by contractor. Drilling is planned for grade control of production material and extending resource's down dip from current planned development.

Slot drive development completed on 1285 level and airleg rises developed on the 1300 level in preparation for stoping in October.

Dreadnaught and Alicia Open Pit

During the Quarter, 37 sterilization holes were drilled for 1,998m at Dreadnought in preparation for the waste dump expansion.

An updated pit design was initiated for Alicia following grade control model update. The Company is seeing an improvement on grade as the strip ratio improves.

CNX Open Pit

During the Quarter, the CNX grade-control model using Leapfrog Edge with a scope to produce a robust and repeatable grade modelling process for mining. This new model generated a more cohesive and repeatable grade shell allowing higher-grade core to be captured and estimated within.

The Company has drilled 23 sterilization holes for 2,431m during quarter which covers the waste dump footprint of the CNX North deposit, which lies a couple of hundred metres north-west of the CNX open pit.

Coolgardie Exploration Activities

Exploration activities consisted of supporting mining proposal preparedness for several deposits.

Deposit	Purpose	Type	Holes	RC Meters	DD Meters	Total Meters
Dreadnought	Sterilisation	RC	37	1,998		1,998
Undaunted	Geo Tech	RC	5	506		506
CNX	Sterilisation	RC	23	2,431		2431
Bonnie Vale	Service	DD	2		85	85
Total Drilling			67	4,935	85	5,020

Greater Undaunted

At Undaunted, 5 geotech holes were drilled for 506.m in preparation of the upcoming mining proposal. Completion of these holes will allow the Company to update grade control model for final pit planning.

Several drilling programs were finalised and approved for the Greater Undaunted area which will see continuous drilling for the next several months starting from early October. These programs are designed to unlock additional resources immediately north of the proposed Undaunted pit in the Cookes, Top Tank, Lady Loch and Adelaide-Friendship deposits.

Additional drilling is planned to follow on from these programs which include the Helensvale, Possum, New Australian, Melanie Anne and Boundary deposits that will enable a continuous mining centre based in the South Coolgardie Hub.

Corporate

Focus received approximately \$112.8 million from the proceeds of sale of gold and silver, plus toll milling fees during the Quarter.

Focus spent \$1.05 million on exploration during the Quarter, including on drilling, assays and payments to consultants and exploration personnel.

In compliance with ASX Listing Rule 5.3.5, Focus reports it has paid \$372,000 to related parties of the Company and their associates, which included Executive Directors' salaries, non-Executive Directors' fees, superannuation and rent for the Directors.

As of 30 September 2025, the Company's cash position is \$113.6 million.

The release of this ASX announcement was authorised by
Mr Wanghong Yang, Executive Chairman of Focus Minerals Ltd.

About Focus Minerals Limited (ASX: FML)

Focus is committed to delivering shareholder value from the Coolgardie Gold Operation, a 112.1km² tenement holding that includes a 1.2Mtpa processing plant at Three Mile Hill, with commencement of mining activities in mid-2023.

Competent Person Statement

The information in this announcement that relates to Exploration Results is based on information compiled by Mr John Morgan, who is a Member of the Australasian Institute of Mining and Metallurgy (AusIMM). Mr Morgan is an employee of Focus Minerals Limited. Mr Morgan has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves.

8.8	If item 8.7 is less than 2 quarters, please provide answers to the following questions: <div style="margin-left: 20px;"> 8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not? <div style="border: 1px solid black; padding: 2px; margin-top: 5px;">Answer:</div> </div> <div style="margin-left: 20px;"> 8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful? <div style="border: 1px solid black; padding: 2px; margin-top: 5px;">Answer:</div> </div> <div style="margin-left: 20px;"> 8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis? <div style="border: 1px solid black; padding: 2px; margin-top: 5px;">Answer:</div> </div>	
<i>Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.</i>		

Compliance statement

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

28 October 2025

Date:

Authorised by: Wanghong Yang, Executive Chairman
(Name of body or officer authorising release – see note 4)

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
