

Proposed Sale of Witvlei Project in Namibia – \$200,000 Non-Refundable Deposit Received

Recently announced sale of non-core asset JV Vehicle (NRX 80%) for total consideration value of A\$4.5m progresses to the next stage

Further to its ASX announcement of 24 November 2025 regarding the divestment of its non-core Witvlei Project in Namibia, Noronex Limited (**ASX: NRX**) (**Noronex** or the **Company**) is pleased to advise that it has now received a non-refundable option fee of A\$200,000 in cash under the terms of the agreement with privately owned mining company Joint Era Mining Co., Limited (**JEM**).

Under the sale agreement, JEM was required to pay the option fee on an 80:20 basis to Noronex and its Joint Venture partner, Larchmont Holdings Pty Ltd (**LIH**).

The payment of the non-refundable option fee within seven days of the signing of the Binding Heads of Agreement on 24 November triggers a 3-month exclusivity period allowing JEM to complete due diligence on the Witvlei Project.

The total consideration value of the transaction is A\$4.5 million, payable in stages. The full details and terms of the transaction were outlined in the ASX announcement of 24 November 2025.

Witvlei Project Background

The Witvlei Project is contained within EPL 7028 and 7029. The licence area represents 29,000 Ha of Noronex's current 858,000Ha exploration package. The Witvlei Project is located at the western end of Noronex's extensive copper portfolio, which spans 300km within the Kalahari Copper Belt in Namibia.

The successful sale of Witvlei (see location in Figure 1) will allow the Company to focus on its extensive copper portfolio including the Humpback, Damara and Powerline Projects, which are currently being drilled as part of earn-in agreements with South32.
