##### Kaiser's Managing Director, Brad Valiukas, commented:

*"Henty continues to perform strongly, with a second strong quarter of production under Kaiser's ownership, with nearly 7,000oz produced and over 7,500 ounces poured, producing robust cash flow. At the same time, we are reinvesting back into the Mine with drilling, infrastructure and equipment, targeting a consistent +30k oz Au run rate from next financial year.*

*"Maldon has processed the last of the ore from the A1Gold Mine and has continued to operate with consistent feed from historical dumps, supplemented by ore purchases. This quarter has seen Maldon's most consistent processing throughput for some time. Two drill programs were also completed at Maldon during the quarter.*

*"Kaiser's balance sheet continued to improve during the quarter, with a \$13M increase, further reductions to the outstanding gold loan, and now only two further call options (total 2,000oz Au A\$5,300) to Auramet to fulfil. At the start of March, Kaiser will be fully exposed to the gold price.*

*With robust gold production, a strong pipeline of exploration and development opportunities and a solid balance sheet, Kaiser is well positioned to capitalise on a surging gold price. "*
